RESEARCH POLICY

Aims of the Research Policy

The college has defined the research policy with an aim to create a positive research culture among the faculty and the students; to develop and promote scientific temper and research aptitude; to realize the vision and mission of the college and to contribute to national development.

The policy also aims at ensuring that the research activities of the college abide by the accepted norms and standards for safe and ethical conduct of research.

Scope of the Research Policy

This policy is applicable to all the researchers pursuing research on campus as well as associate researchers off campus. This policy shall also apply to all the research and related activities of the college.

Objectives of the Research Policy

- To identify and communicate faculty and researchers about the probable research opportunities announced by different academic, research, industry or government organisations and provide assistance to avail the same.
- To promote interdisciplinary research.
- To encourage faculty for taking up research in terms of minor / major projects, etc.
- To apply for research grants for the up-gradation of the infrastructure.
- To support the faculty for organizing research based workshops, training programs and conferences.

- To motivate the researchers to present their research work in seminars, conferences, research related competitions and to publish their works in the reputed journals.
- To invite eminent persons in the respective fields for interaction with the researchers and the students.
- To increase rapport with the reputed industries, research institutes and generate strong collaboration to benefit researchers on the campus.
- To guide and support researchers in facilitating MoUs.

Composition of Research Cell

Research Cell has the following composition

- Chairman: Principal of the College
- Coordinator: 01
- Faculty Representatives: 4

At times, the research Cell is expanded with the inclusion of more members as necessary.

Principal,
