Every year college forms Discipline Committee for maintaining Discipline in campus. The Vishakha Guidelines were a set of procedural guidelines for use in India in cases of sexual harassment. The college motivates girls and boys for their social responsibilities. The physical education & sports department is very active. It motivates students to participate in various indoor and outdoor games. Reading festivals and book exhibitions are arranged under the initiative of the library.

The college campus has a water reservoir which is very beneficial and plays an important role in the water management of the campus. It was dug to obtain the stone pieces for the construction of the spacious building of the college. This has become the natural source of water. It is around 20 feet deep and 4500 sq ft in width. The water conserved in that reservoir is useful to plant more trees and to conserve the existing trees and bushes in the college campus. The water of this reservoir is also used for the sanitary purpose and in science laboratories if needed. It has also been used to decorate the facade of the college with various plants and flowering plants. We could establish a good botanical garden by using the water of this reservoir and indeed we are working on developing a well-planned botanical garden in the campus. It is situated between the college building and the building of the girl's hostel. So, it has been protected by using the iron fence to avoid any mischief in the future.
